

SK-215

Self-Services Kiosk

Slim and Powerful

Self-Services Kiosk is specialised machine designed and built for your customers to transact with your services without any staff presence.

SK-215 Self-Services Kiosk can be automated such as ticket selling, food ordering, bill payment or others.

Most clients deploy our kiosks to extend their customer service hours to 24x7 with low support cost, expand sales points at High Traffic Areas to increase customers satisfaction and this may help to boost sales or revenue.

*Optional stand
